

4 and 8-Channel ESD Protection Arrays in CSP

Features

- 4 and 8 channels of ESD protection
- *OptiGuard*™ coated for improved reliability
- ±15kV ESD protection on each channel (IEC 61000-4-2 Level 4, contact discharge)
- ±30kV ESD protection on each channel (HBM)
- Chip Scale Package features extremely low lead inductance for optimum ESD protection
- 5 bump, 0.960mm X 1.330mm CSP footprint for CM1220-04
- 10 bump, 1.960mm X 1.330mm CSP footprint for CM1220-08
- Lead-free version available

Applications

- LCD and camera datalines in mobile handsets
- I/O port protection for mobile handsets, notebook computers, PDAs, etc.
- Keypads and buttons
- Wireless handsets
- Handheld PCs/PDAs
- LCD and camera modules

Product Description

California Micro Devices' CM1220 ESD protection arrays are available in four and eight channel configurations. Each ESD channel features a nominal capacitance of 14pF making these devices ideal for protecting high speed I/O ports and LCD and camera data lines without significantly affecting signal integrity. The CM1220 integrates avalanche-type ESD diodes on every channel, providing a very high level of protection for sensitive electronic components that may be subjected to electrostatic discharge (ESD). These diodes safely dissipate ESD strikes of ±15kV, exceeding the maximum requirement of the IEC61000-4-2 international standard. Using the MIL-STD-883 (Method 3015) specification for Human Body Model (HBM) ESD, these devices protect for contact discharges at greater than ±30kV.

These devices are particularly well-suited for portable electronics (e.g. wireless handsets, PDAs, notebook computers) because of their small package and easy-to-use pin assignments. In particular, the CM1220 is ideal for protecting high speed I/O ports and data and control lines for the LCD display and camera interface in mobile handsets.

These devices incorporate CMD's *OptiGuard*™ coating for improved reliability at assembly. The CM1220 is available in a space-saving, low-profile Chip Scale Packages with optional lead-free finishing.

Mechanical Details

The CM1220 is supplied in custom Chip Scale Packages (CSP) depending on the channel count. Dimensions for these packages are presented in the following pages.

CM1220-04CS/CP Mechanical Specifications

Mechanical dimensions for the CM1220-04CS/CP are presented below.
