GREEN 100GHz 4/8 CHANNEL DENSE WAVELENGTH DIVISION MULTIPLEXING

DWDMG1 4/8ch Series

Product Description

Oplink's 100GHz Dense Wavelength Division Multiplexer is based on patented athermal platform for optical device. This multiplexer features ultra low insertion loss, super thermal stability, and unparallel reliability. The technology is a lead-free packaging platform and no epoxy in the optical path. Green 100GHz DWDM is Telcordia GR-1221and GR-1209 tested, qualified for uncontrolled environment applications and complied with industry green initiatives such as RoHS and WEEE.

Oplink can provide customized designs to meet specialized feature applications. Also, Oplink offers modular assemblies that integrate other components to form a full function module or subsystem.
