

GLP-447 5-300 mW

Portable Blue Diode Laserpointer

Portable 447nm diode laserpointer, featuring push button, compact size, and long lifetime.

Specifications	
Wavelength	447 ±5 nm
Output Power	5 – 300 mW
Transverse Mode	Near TEM ₀₀
Operating Mode	CW
Beam Divergence (full angle)	< 1.5 mrad
Beam Diameter (at the aperature)	~ 5 mm
Range in darkness	10000 m
Power Supply	2 x CR2 / 3V Li battery (included)
Expected Lifetime	3000 ... 5000 hours
Max. continuous ON time	Device must be turned off if warmed considerably
Warranty period	6 months

Dimensions

150 x 17 mm
