

HBD SERIES - DUAL OUTPUT, 60 WATT

DESCRIPTION

HBD dual output, DC/DC converters feature high efficiency, 1500 VDC isolation, and open-frame packaging. The HBD family allows board designers to deliver any combination of power from either output, up to each model's maximum rating. The HBD is available in 5V/3.3V or 3.3V/2.5V combinations in either a 24V or 48V input version. The HBD uses planar magnetics and has an MTBF of over a million hours.
