

# 2.5mm Pitch Connector for Discrete Wire Connection

HNC Series

## ■ Features

### 1. Full Lock Mechanism

The connector is equipped with the full lock mechanism so as not to be removed, unless locks are reset on both sides. This mechanism is activated effectively to prevent cable hooking or mis-insertion.

### 2. Thin Type Connector

Mounting height when the connector is used at the right angle : **4.5mm**

### 3. Mechanism to Prevent Mis-insertion

This thin type connector is equipped with the mechanism to prevent mis-insertion.

### 4. Tin Plating and Gold Plating Variation

Two kinds of tin plating and gold plating types are available, and can be chosen according to application. The tin plating is also set to a light operating touch.

## ■ Applications

Various business equipment, financial terminals
