

Mini UHF Male to BNC Female Adapter

PE934

RF Adapters Technical Data Sheet

Configuration

- Mini UHF Male Connector 1
- BNC Female Connector 2

Features

• Gold Plated Brass Contact

Applications

Allows Connection Between Series
General Purpose Test

Description

Pasternack's PE9342 Mini UHF male to BNC female adapter is part of our full line of RF components available for same-day shipping. Our Mini UHF to BNC adapter has a male to female gender configuration.

• 50 Ohms

Straight Body Geometry

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/ disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
